This is a residential area. Would the people granting this application like this on their doorstep? There is a school nearby and children travelling to and from school. If granted there will be an increase in heavy vehicles. This is a safety issue. Trees have already been chopped down in the existing area. There is a stream running alongside the existing plant. Wildlife as well as local residents will be affected. Nothing good will come from a concrete plant on this land. Pollution and dust will be increased. There are quite a number of elderly people in the area that will be affected by an increase in dust.
