I strongly object to this development. We are already subjected to noise from 6 am in the mornings. Dust dirt and fires are a regular occurrence. We can't sit in our garden comfortably because of the noise and air pollution. The big wagons and trucks are a havoc on the roads that aren't equipped to deal with this sort of traffic. There is a stream and wildlife all around that area. There are allotments with crops, there is a school less than 10 minutes walk from the existing plant. The health implications from a site like this in the middle of a residential area are massive. There is no call for this type of business in a built up area where there are so many homes, it should be on an industrial estate. I personally would welcome the whole place closing down.
