This development is not suited to the area in which it is located. It is very close to residential housing, a primary school and woodland.

Ever since this business opened here I have been negatively affected by the amount of noise and the hours of operation at this business - I am woken up every day by loud clanging metallic noises at 6 am and I am unable to enjoy any peace in my garden during the week due to the constant noise of machinery, vehicles and large quantities of materials being moved around.

Since the boundary trees were cleared in the initial development of the site, I can see right through from my garden to the buildings on the site. Other developers in the area have also removed trees from their boundaries, and woodland that used to provide privacy at the back of my house is now thinning out.

I am concerned about the increased activity and large, noisy and unsightly machinery being erected even closer to my home. I feel the character of this area is being eroded by these expanding businesses. This is a small industrial site that used to be relatively peaceful but has become more intrusive.
