We live very close to the proposed site, there is already lots of noise pollution and dust from the site.
It is incredibly disturbing, Almondbury Bank is already a busy road with constant traffic, additional lorries will be very difficult to live with.

I am also concerned with the potential air pollution and waste that is produced from concrete production. We have two children one who has asthma and the other is very young, we are already subjected to air pollution from the fabric production firm just down the road and the constant traffic outside our door.

There are also a lot of wildlife around which rest in the neighbouring trees and bushes.
