We object to the expansion of the plant in a residential area as it will have a detrimental impact on the local area due to increased noise levels from increased traffic flow and plant machinery; increased air pollution which is of a concern for all residents, but particularly those with asthma or other breathing medical issues. It will have an impact on the local fauna and flora and possible pollution to the local watercourses, namely Penny Spring Beck and Benholmley Beck. Cement plants emit particulate matter such as PM10, PM4, PM2.5 and PM1 and gasses like NOx and SO2, contributing to issues such as acid rain and tropospheric ozone. For these reasons we object, most strongly, to the planning application.
