The concrete plant is too near to residential areas. There is a lot of noise during the day from the site, a bigger 24/7 operation will be louder & more disruptive. The excess of dust pollution in the air will make it inhospitable to use our gardens and dry washing outside. My car is regularly coated in a layer of dust, this will be even worse. The dust pollution will also affect the local wildlife, ruining the lovely woods where people take their family's & dogs. All of this will reduce the value of all the houses in the local area.
