This a residential area and the proposed facility is entirely inappropriate. Ready mixed concrete making is very noisy and also is often at anti social hours which increases the annoyance Also dust produced is a problem.Large lorries coming in and out are also noisy particularly at night or early am. The entrance to the site off Almondbury bank is awkward and may cause difficulties with often parked cars and traffic problems.Some lorries going up or down Almondbury Bank on a road unsuitable for such lorries into Almondbury. The stream coming down Longley Woods is adjacent to the site and unpolluted to that point but runoff off from pollutants on the site will then be carried down stream. So major concerns for neighbourhood residents and for environmental issues further afield.
