<p>My concerns is the road safety for vehicles and pedestrians The main access to Heaton Lodge is via a single track private road without a pedestrian causeway which currently services approx. 9 properties. Hazards and near miss collisions for cars and pedestrians are common due to the blind access form side roads and the entry and exit from the main access point directly off Bog Green Lane which is a very busy rat run acting as a cross country bypass between the M1 and M62.</p> <p>We have seen real evidence of the potential hazard with increased traffic as the road is currently used by network rail for construction traffic and requires a manned Traffic Management to reduce risk.</p> <p>This would be replicated with the addition of any further dwellings without the traffic management.</p>
