<p>I am confused how traffic is going to be managed with all these properties being built, especially pulling out onto a very busy road with poor visibility, even Network Rail can't get their road for planning for a temporary road, so how on earth is this going to work with permanent access?</p> <p>It is a single track road, with pedestrians and cyclists up and down including children, do you think this is a safe place to have all this extra traffic?</p> <p>Do we also know about drainage, how this will work?</p>
