Firstly, the height of the new developments will have a negative effect on the light which is able to reach our gardens and houses. The character of this new proposed extension will not match a conservation area. Rendering over breeze blocks is an eyesore. Just like how they added stone tiles on to the illegal extension built. Who use's cheap stuff? How can the council pass this new application? Rendering must NOT be used nor should stone tiles be added on top of the rendering. The work that they intend to be carried out will cause disturbance in terms of noise and the ability to drive in and out of our private road on West Park Street. Not to mention the years' worth of eyesore and constitutional pollution.
