<p>Field is a treasured cafe within local community and wider, as I, my friends and family often visit. It brings revenue to a small village that has nothing similar, nor do neighbouring villages. The current indoor and outdoor areas provide much needed space for a bustling cafe. The outside area offers space for my daughter to play, enjoy the fresh air and also offers extra space for cafe and local community events that we all love to go to. I truly hope this space is granted to be used as outdoor seating as losing such would take all of the above away from such a jewel of a hub that Field is.</p>
