TOWN AND COUNTRY PLANNING ACT 1990 Town & Country Planning (Tree Preservation)(England) Regulations 2012

NOTICE OF REFUSAL OF CONSENT TO FELL AND/OR PRUNE

Application Number: 2025/91695

In pursuance of its powers under the above mentioned Act and Regulations and the Tree Preservation Order made by the Kirklees Metropolitan Council (hereinafter called 'the Council') as Local Planning Authority and pursuant to the application submitted to the Council on 19-Jun-2025:-

THE COUNCIL HEREBY **REFUSES** TO CONSENT TO THE CARRYING OUT OF THE FOLLOWING OPERATIONS TO THE PROTECTED TREE(S) TPO No. 08/88

At: Apartment 1, Waverley, 18, Edgerton Road, Edgerton, Huddersfield, HD3 3AD
The removal of 10-12 Sycamores and 2 Hollies

The **REASONS** for the Council's decision to refuse to grant consent are:

1. These trees are a prominent landscape feature in the locality and as such contribute significantly to public amenity consequently the grounds for their removal must be weighed against the amenity they provide.
2. Due to their location adjacent a public right of way and Edgerton Road, these trees contribute significantly to public amenity. The trees are in apparent good health and

show no signs of obvious major defect which would make them a threat to person or property.

3. There was no evidence from an appropriate expert submitted with the application to show that the trees are dangerous as required in section 8 of the application.
4. There was no evidence from an appropriate expert submitted with the application to show the wall cannot be repaired while retaining the tree.
5. There was not enough evidence submitted with the application to definitively show the trees poses any abnormal health and safety concerns. However, should additional evidence come to light the Council would be happy to consider a new application supported by this.
6. There was insufficient evidence submitted with application with regards to investigation into alternative methods of remedial action.
7. There was no information submitted with the application regarding alternative construction solutions that would allow the trees and structures to co-exist.
8. The trees are an integral part of a group and its removal would have a detrimental effect on the composition of the group and the amenity it provides.
