Type of comment: An objection	
Do you wish your comments to be published on the website anonymously?	Yes
<p>This property is well known in the village for its grade 2 listed status and is a great example of such a property. When it was listed for sale by the previous owners it was made clear in the sale documents and by the seller of the listed status. The village has seen so much modern development that the original character and heritage is being lost. This property lies in the heart of the original Netherthong village, is grade 2 listed and of important heritage in a conservation area. The windows are not even an in keeping colour nor material. They do not fit with the structure of the building nor the essence of its integrity. It is not only the windows. It's down pipes, guttering, eave boards, rear roof. All the work undertaken on this property defies planning and listed status. It is not appropriate for personal interest to over ride and undermine the planning process. We have a responsibility to ensure future generations are given the opportunity to see our great nation and our heritage areas as they once were. Planning is clear and should be upheld and should not be allowed to discriminate against others in the area who have had to make significant changes as they were deemed to not fit with planning. If it's good for one then it is good for all and Kirklees must have the integrity to uphold its duty.</p>
