<p>As a local who regularly walks through Netherthong village I am keen that its amazing character is maintained for our generation and those following us to enjoy With so much development around the village the listed buildings in the centre become even more valuable. We all know that listed status can be a boon and a millstone for property owners but to buy same and not recognise the attendant responsibilities is at best naïve. Please stick to the requirements for listed buildings and avoid 'plastic creep' in our beautiful village.</p>
