<p>I am writing to object to the proposal to turn the double garages next to my back garden into new living accommodation (Probably rented separately). This change will bring more noise and disturbance right next to my home. My garden is the only quiet space I have to relax, and having people living so close will take away that peace. The noise from extra people, doors opening and closing, and daily activity will have a big impact on my quality of life.</p> <p>The new building will also affect my privacy. People living there will be able to look straight into my bedroom and bathroom windows, which is very uncomfortable and upsetting. I have lived here for many years and never had this problem before. I don't want to feel watched in my own home, especially in private areas. This change will make me feel uneasy and less safe.</p> <p>Parking is already difficult in this area, and more tenants will make it worse. Construction will also cause noise, dust, and disruption for weeks or months. This is too much to deal with right next to my garden. Please reject this application.</p>
