We own the property directly opposite this property and are not against the plans for extension but request an adjustment for privacy if possible? It will look directly into my bedroom window from a raised incline and will seriously affect current privacy. Is there any chance of requesting the use of obscure or partially obscure glass in the bedroom facing the west to save privacy into my bedroom? Or alternatively place the window on the adjacent wall overlooking the farm track? I've tried to speak to owners directly but I think they must be away the last 2 weeks and the close date for comments is tomorrow. Many thanks
