<p>As i see that currently this place has had not been developed, as this will be an excellent design for Staincliffe Mills as currently all this area is commercial and only this site was undeveloped but living in this area and knowing this area really well this site was used as illegal dumpings and illegal activities happening on this site made it insecure unsafe the area and special unsafe for the rest commercial sites within this area as it was crime happening site but i happy to see that action was taken and this site has had a planning i urge council to take this as a positive because once this site has built it will be full secure for us and the rest of the business as i see this positive i fully support this application it will bring people to work and build the community in a good way we want tirelessly to excel more business more educated people rather if it is left like this it will be a crime site i urge you to look at this in a positive manner thank you.</p>
