<p>I am writing to express my strong concerns regarding the proposed new housing development above. While I understand the need for new housing, I firmly believe that this particular development will have a devastating impact on the village's infrastructure, particularly with regards to traffic.</p> <p>The village's roads are already congested, and the addition of 82 new homes will undoubtedly lead to a significant increase in traffic volume. This will not only cause gridlock on our roads but also pose a risk to pedestrian safety, especially for children, the elderly, and other vulnerable members of our community. Meltham road is already a problem with speeding vehicles.</p> <p>The village is already put to a stand still if a Vehicle is turning right from the main road in the village.</p> <p>Furthermore, the increased traffic will lead to increased air pollution, noise pollution, and a general decrease in the quality of life for village residents. I urge the local authority to reconsider the proposal or, at the very least, to conduct a thorough traffic impact assessment to determine the true extent of the development's effects on our village.</p> <p>I request that you take my concerns into consideration and take necessary steps to mitigate the potential negative impacts of this development.</p> <p>Sincerely,</p>
