Why does this area need a hostel? A common use now for hostels are for the homeless … is this proposal to be granted for illegal immigration hostel and government funded? If so I strongly object. We need people in the area that can legally contribute and pay taxes, not the unemployed. We need regeneration with people who can contribute to the area and not simply use this to take government money. Is there a report on why a hostel is needed? Who will be residing here? Will they be vetted? Will these be working people with working visas? Until more clarification is given I strongly object.
