<p>My objections to the application for the redevelopment of 194 Taylor Hill Road relate to the plan to construct a second storey to the rear of the property. The current footprint of 194 Taylor Hill Road extends beyond the end of my main house (excluding my single storey rear extension) therefore a second storey to the rear of the property will have the following impacts on my property at 192 Taylor Hill Road</p> <p>1. There will be a significant reduction of daylight and sunlight reaching my property effecting the living conditions in my home particularly in the kitchen, which has a window facing 194 Taylor Hill Road, and the master bedroom on the first floor. This will be particularly significant in the winter when the sun is lower in the sky. We have taken photographs to show this if required as I can't find a way to submit them with this objection.</p> <p>2. The development will cause a loss of outlook and views across the valley from my kitchen and master bedroom which are an important feature of my property. The proposal for a second storey would introduce a visually intrusive structure that would damage the open character of the valley when viewed from my property as well as other neighbouring properties.</p> <p>It is for the above reasons that I wish to object to the application.</p>
