<p>The cuckoos nest windows are becoming dangerous, especially the book shop, one push into the glass and it's likely to fall. The plans put forward would be inkeeping with the other shops on the street. Environmentally having double glazing would be much better. The cuckoos nest is an important shop for the village, providing grants to local community groups, helping the village to thrive, they also bring in lots of shoppers and again, environmentally help by providing a place for people to donate unwanted goods, I'd hate to see the shop closed due to health and safety.</p>
