<p>I am in support of the application. The existing shop front is weathered beyond repair. Design is in keeping with existing frontage. Use of a local firm to complete the work is positive. Having double glazing will ensure the building meets green credentials, and ensure it is efficient with heat. The Cuckoo's Nest ensure that the income they generate is invested in the local community through voluntary and community groups, helping support and provide opportunities for people within the community. This improvement work will ensure they can continue to support and with lower energy bills from double glazing they will have more money to invest in the community.</p>
