Dear Nicole,

I am sending an objection email regarding the above referenced planning application for 81 George Avenue for a change of use from dwelling to residential care home.

There will be impact on the local area. It will impact on the characters of the neighbourhood and cause traffic noise or disturbance. Care homes often generate additional traffic and parking demands. It will therefore cause traffic problems or lead to insufficient parking.

There is already a school St Patrick's Primary Academy on George Avenue which already causes a bottleneck in this bend part of the road and also causes parking issues during school opening and finishing times.

Thank you for reading my objection email. I hope our concerns are taken into account in your decision.

Thank you
