Appendix A – Climate Change Statement

Climate Change Statement for Planning Applications

Part 1: Applicant details

Name of applicant/agent	Mr B. Johnson
Site Address	30 Sheardale Honley Holmfirth HD9 6RU
Description of Development	Removal of existing conservatory and erection of single storey side extension.

Part 2: Climate Change Mitigation measures

Please respond to the following questions considering the measures set out in the Climate Change Guidance note:
Q1: What measures have been/will be taken to reduce the energy demand associated with your proposed development beyond the minimum required in Building Regulations? (See section 2)
• Smart energy metering and visual displays showing energy consumption will be installed. • All lighting internally and externally will be LED to minimise energy consumption. • Building services controls including the use of thermostatic valves and temperature regulated thermostats will be incorporated preventing unnecessary energy consumption. • External hanging space is achievable
Q2: What measures have been/will be taken to limit the carbon consumed through the implementation and construction processes, e.g. by reusing existing on-site materials or sourcing materials locally? (See section 3)
Materials sourced locally and re-used from existing demolition
Q3: What measures have been/will be taken to utilise renewable or low carbon energy sources? (See section 4)

N/A
Q4: What measures have been/will be taken to ensure the building design and layout has been optimised to energy efficiency beyond the minimum requirements in Part L of the Building Regulations ? (See section 5)
The walls of the proposed extension will be insulated beyond the requirements of Part L.
Q5: What measures have been/will be taken to reduce potential impacts of flooding associated with your proposed development? (See section 6)
N/A
Q6: What measures have been/will be taken to reduce water stress associated with your proposed development? (e.g. Water retention and minimisation measures) (See sections 7 and 8)
Rainwater harvesting via water butt
Q7: What measures have been/will be taken to provide biodiversity net gains? (See section 8)
N/A
Q8: What measures have been/will be taken to reduce air pollution associated with your proposed development? (See section 9)
n/a
