Type of comment: A supporting comment	
Do you wish your comments to be published on the website anonymously?	Yes
This comment is in support of the application. However, the Chamber of Trade has recently raised with the council the issue of the steady deterioration of the Daisy Hill area due principally to the issue of limited waste storage and collection facilities. This has led to a rat infestation requiring the attention of the council;s Pest Control dept. With 14 apartments each entitled to two wheelie bins this development must make provision for sufficient space for the storage and management of waste which is not on the pavement.
