Responding Date: 15 th September 2025	Responding Officer: SR	Responding Ref: WK202527529
<u>Comments</u> We have been consulted on the above application but note there are no technical documents for us to comment on. The application appears to be an alteration of one of the buildings in the middle of the overall site, from residential to a different type of residential accommodation. Environmental Health have commented on the original application for the site and recommend that any mitigation (within the remit of Environmental Health), for the site at this location or outstanding conditions (within the remit of Environmental Health), that impact this location will be necessary
