<p>We do not have the infrastructure to support more housing at this time - it's a struggle getting doctors appointments as it is. Cockley Hill is a small country road and the extra traffic is a concern - our village is already a rat run of cars cutting across to junction 25 never mind adding extra cars for houses on this development. The land is green belt and supports wildlife including deer which would be disturbed. In addition removing green belt removes the ability for water to be absorbed and concreting/tarmac king will create issues for houses lower down the village. There are brownfield sites that should be developed before allowing green land development.</p>
