Postcode:	S9 1XE

## User comments

Type of comment: An objection	
Do you wish your comments to be published on the website anonymously?	Yes
<p>I object because the houses that are to be built are on green land and trees will have to be removed to accommodate them. Where is the concern about the planet when trees are to be removed. In the fields there are an abundance of wild life from deer, owls, bats.</p> <p>Then there are the concerns about the road and access. Cockley Hill Lane can be like a race track at times and to add another access road not opposite Cockley Meadows is an accident waiting to happen. Coming out of Cockley Meadows can be a nightmare without the addition of another access road. Due to the location of other older houses in Cockley Hill Lane residents vehicles have to be parked on the road causing further hazards when other vehicles are travelling at speed. The road is often used by horses and their riders which is another potential hazard and a danger to road users. Then the site will add further vehicles to Cockley Hill Lane.</p> <p>Consideration must also be given to the village schools, dentists and doctors which will add further people to their lists making places or appointments more difficult.</p>
