<p>There are Brown Field sites that should be used before using Green Belt sites. An example is the Broadhead & Graves Mill site on Shop Lane. The Village services such as Doctors and Dentists are already oversubscribed without adding to them. The proposed access road on Cockley Hill Lane will only add to the likleyhood of accidents occuring. Speeding traffic on Cockley Hill Lane is already a problem for local residents. The proposed site is the habitat of many endangered wildlife species.</p>
