<p>The applicants, Templar Hive, when asked why Kirklees should consider a lawful development certificate have commented : "To provide a safe environment for each young person."</p> <p>Firstly dealing with safeguarding issue the full address of the proposed home was put on its website for all to see, so everyone would be able to access the information for undesirables to see where potentially young vulnerable children may live. This makes me feel that Templar Hive have actually no idea about providing a safe environment for a child.</p> <p>Together with the with pictures on their website of the inside facilities of Woodland Glade. The board of Woodland Glade have confirmed that their age group will not be able to use the facilities.</p> <p>I believe that Kirklees will be putting the children possible adults at risk and making the area an unsafe environment for all. By having more traffic running right through the estate, which passes a grassed area for play, so with further potential to target other children. As the children are governed by GDPR we will have no idea who these children are and what they are capable of or doing.</p> <p>The estate has been a safe and secure for many years, which it was why it was developed as it was in the first place, but I believe the impact of a children's home will encourage and attract illegal and anti social issues to be come common place and then impact the safety of its present residents and their children.</p>
