<p>Impact on highway safety and traffic - this road already has a high level of traffic which is exacerbated by the parking requirements of the residents. Locating 4 houses needing vehicular access will increase the pinch point here and add to the risk of incidents and potential accidents.</p> <p>As a resident we have not been informed either by letter or public notice of these plans. In addition the construction and impact of that construction will have a huge impact on all residents around and opposite. If and when complete residents will also be effected by access requirements and increased traffic.</p> <p>There are also concerns about the effect of the property on the local environment and the landscape with well established trees having to be removed.</p> <p>Previous applications have also been submitted and have only been for 2 houses and 4 dwellings increases the impact on the area and on residents.</p>
