

KIRKLEES METROPOLITAN COUNCIL INVESTMENT & REGENERATION SERVICE

DEVELOPMENT MANAGEMENT

Town and Country Planning Act 1990 (as amended) – SECTION 70

DELEGATED DECISION TO DETERMINE PLANNING APPLICATIONS

Reference No:	2025/62/92380/W
Site Address:	Newsome Barbers, 15A, Newsome Road, Newsome, Huddersfield, HD4 6NX
Description:	Change of use from barbers shop/dwelling to childrens care home (C2) with loft conversion and front and rear dormers
Recommending Officer:	Jennifer Booth

DECISION – CONDITIONAL FULL PERMISSION

I hereby authorise the approval of this application for the reasons set out in the officer's report and recommendation annexed below in respect of the above matter.

Emma Thompson

AUTHORISED OFFICER

Date: 21-Oct-25

Error! Filename not specified.

OFFICER REPORT

Site Description

15a Newsome Road is a detached, stone built building. At present there is a chip shop on the ground floor with living accommodation over. There is an open, paved area to the front and hardstanding to the side and rear.

The property is on a residential street with a mix of house types surrounding.

Description of Proposal

The applicant is seeking permission to modify the existing approval for a change of use to provide a residential home for children and for a loft conversion into additional accommodation granted under 2025/91309 to include dormer extensions in the front and rear roof plane.

The previously submitted details which outlined the intention to provide accommodation for two children aged between 7 and 17 with 2 carers at all times and a manager during the day are still valid.

Relevant Planning History

2025/91309 – Change of use to childrens home - approved

Representations

The application was advertised by neighbour letters, which expired on 13/10/2025

As a result of the above publicity, no representations have been received.

Consultation Responses

DOCO – informal discussion to clarify the previous comments were still valid

Policy

Section 38(6) of the Planning and Compulsory Purchase Act 2004 requires that planning applications are determined in accordance with the Development Plan unless material considerations indicate otherwise. The statutory Development Plan for Kirklees is the Local Plan (adopted 27th February 2019).

The site is UNALLOCATED on the Kirklees Local Plan Proposals Map

On 12th November 2019, the Council adopted a target for achieving 'net zero' carbon emissions by 2038, with an accompanying carbon budget set by the

Tyndall Centre for Climate Change Research. National Planning Policy includes a requirement to promote carbon reduction and enhance resilience to climate change through the planning system and these principles have been incorporated into the formulation of Local Plan policies. The Local Plan predates the declaration of a climate emergency and the net zero carbon target; however, it includes a series of policies which are used to assess the suitability of planning applications in the context of climate change. When determining planning applications, the Council will use the relevant Local Plan policies and guidance documents to embed the climate change agenda.

Kirklees Local Plan Policies

- **LP 1 – Achieving sustainable development**
- **LP 2 – Place shaping**
- **LP7 – Efficient use of buildings**
- **LP11 – Housing mix**
- **LP 22 – Parking**
- **LP 24 - Design**
- **LP 30 – Biodiversity**

Kirklees Planning Guidance for Children's Homes 2025 provides guidance to assist applicants, planning officers, and stakeholders in the preparation and assessment of planning applications for children's homes within Kirklees. While it sets out key considerations, policy context, and good practice principles, it is important to note that this guidance does not form part of the statutory development plan and has not been adopted as a Supplementary Planning Document (SPD). As such, it carries limited weight in the formal decision making process but may be used as a material consideration where relevant to the planning judgement of individual cases

National Policies and Guidance:

National planning policy and guidance is set out in National Policy Statements, primarily the National Planning Policy Framework (NPPF) published December 2024, and the Planning Practice Guidance Suite (PPGS) first launched 6th March 2014 together with Circulars, Ministerial Statements and associated technical guidance.

The NPPF constitutes guidance for local planning authorities and is a material consideration in determining applications.

- Chapter 2 – Achieving sustainable development
- Chapter 8 – Promoting healthy and safe communities
- Chapter 9 – Promoting sustainable travel
- Chapter 12 – Achieving well-designed places
- Chapter 14 – Meeting the challenge of climate change, flooding and coastal change
- Chapter 15 – Conserving and enhancing the natural environment

Assessment

Principle of development:

The site is without notation on the Kirklees Local Plan (KLP). Policy LP1 of the KLP states that when considering development proposals, the Council will take a positive approach that reflects the presumption in favour of sustainable development contained in the NPPF.

Policy LP2 of the Kirklees Local Plan sets out that all development proposals should seek to build on the strengths, opportunities and help address challenges identified in the Local Plan.

The principle of the proposal upholds the aims of the NPPF in terms of addressing the needs of groups with specific housing requirements. Locally, the Kirklees Local Plan (adopted 2019) supports the delivery of a range of housing types to meet identified needs. Whilst the Local Plan has no policies specifically relating to care homes. Policy LP1 promotes sustainable development that improves the economic, social, and environmental conditions of the district. LP7 supports meeting housing needs by promoting the efficient reuse of existing buildings and brownfield land, helping deliver sustainable development while preserving local character and minimising land consumption and Policy LP11 encourages a mix of housing to meet the needs of all groups, including those requiring care. Therefore, there is no presumption against such a use.

In terms of changing the use of the building, Policy LP24 of the Kirklees Local Plan is relevant in conjunction with Chapters 8 and 12 of the NPPF taking into account the character of the area, the amenities of neighbouring properties, highway safety and ensuring the safe operation of the home and community cohesion.

Therefore, in this case, the principle of the use of the building is considered acceptable and the development shall be considered against all other material considerations including the character of the area, residential amenity and highway safety.

Impact on visual amenity:

Policy LP24 of Kirklees Local Plan and Chapter 12 of the NPPF set out that development should be of an acceptable design.

The site currently hosts a detached stone building, formerly a barber shop, with accommodation across three floors, a small area to the front, and an enclosed yard at the rear. The proposal now includes the provision of front and rear dormers. The front dormer is small in scale and designed to ensure that the original roof plane remains the dominant feature when viewed from the street. The rear dormer is larger but remains proportionate to the main dwelling, forming an acceptable and balanced addition that does not appear out of scale. There are no other proposed changes to the exterior of the

dwelling or its outdoor area, and notwithstanding the change of use, there will be no significant visual changes to the site. It will therefore retain its residential appearance.

Internal layout plans include– entrance hall, lounge and a kitchen diner on the ground floor, three bedrooms including a carer room and bathroom at first floor and a 2nd carers room in the roofspace – which would now include dormers in the front and rear elevations.

It is proposed that the house would provide accommodation for 2 children with 2 staff members in attendance at the property on a shift basis.

Staff arriving and departing from the property is not considered to result in a change to the character of the area due to the limited number of staff in attendance. There may be at times a number of other professional staff required to be in attendance at the property due to the nature of the change of the use of the building, any additional visitors would not be considered to be dissimilar in nature to the current use of the building as a residential dwelling.

It is noted that the amenity space is limited to a small, enclosed yard at the rear. However, this is similar to other residential properties in the area.

It is not considered the proposed change of use would cause harm to visual amenity where there would be sufficient justification to refuse the application on the basis of impact on visual amenity on both the property itself or the wider street scene. Furthermore, the inclusion of dormers in the front and rear in the roof plane would not be out of keeping with the area.

It is therefore considered that the proposed works would accord with Policy LP24 and advice within Chapter 12 of the NPPF.

Impact on residential amenity:

Further to this, Paragraph 135 of the National Planning Policy Framework states that planning decisions should ensure that developments have a high standard of amenity for existing and future users.

The proposal indicates the internal accommodation would be retained as existing with no enlargements to the building. As such, it is not considered that to change the use of the dwelling would result in impacts from overshadowing or from being overbearing.

The building is residential with the addition of dormers within the front and rear roof planes. There would be no additional opportunities for overlooking over and above the existing arrangements on site given the substantial separation distances between the host building and the neighbouring dwellings to the front and rear.

It is not considered that a change of use from a dwellinghouse to a care home would result in significant noise or disturbances to neighbouring properties to

an unacceptable degree over and above what would be expected from a residential property within a residential area, in this case.

Having considered the above, the development is not considered to result in any significant adverse impact upon residential amenity of any surrounding neighbouring residential properties, complying with Policy LP24 of the Kirklees Local Plan and Chapter 12 of the NPPF.

Crime and Anti-Social Behaviour:

The fear of crime is a material planning consideration. Chapters 8 and 12 of the NPPF state that decisions should aim to achieve healthy, inclusive and safe places which are safe and accessible so that crime and disorder and the fear of crime to not undermine the quality of life or community cohesion. In addition, and under Section 17 of the Crime and Disorder Act 1988, the Council acting as Local Planning Authority has an obligation to have due regard to the likely impact upon and to do all it reasonably can to prevent crime and disorder.

Chapter 8 of the NPPF states that planning decisions should achieve healthy, inclusive and safe places which are accessible, so that crime and disorder, and the fear of crime, do not undermine the quality of life or community cohesion. This is further reiterated under Chapter 12 of the NPPF which goes on further to state that planning decision should create spaces that are safe, inclusive and accessible which promote health and wellbeing, with a high standard of amenity for existing and future users and where crime and disorder and the fear of crime to not undermine the quality of life or community cohesion and resilience.

Policy LP1 of the Kirklees Local Plan forms a provision for development which do not have specific policies to ensure that permission can be granted unless there are material considerations including adverse impacts, which the potential for crime and disorder would be a significant factor, where the adverse impact would outweigh the benefits.

The potential for increased crime or anti-social behaviour associated with the operation of a children's home at the application site is a commonly held perception; however, national and local guidance clarify that there is no substantive evidence to support a direct link between children's homes and increased crime levels. The guidance issued by Kirklees Council explicitly identifies this as a prevalent myth and notes that such homes are regulated by Ofsted and operate under stringent safeguarding and management frameworks. Furthermore, the submitted Management Plan outlines appropriate operational procedures and security measures which contribute to the safeguarding of both residents and the wider community. As such, the proposed development is not considered to result in any demonstrable or unacceptable risk of crime or disorder in the locality.

The safety and wellbeing of the future occupants of the proposed children's home is a key consideration in the assessment of this application. The

guidance provided by Kirklees Council highlights the importance of locating such facilities in safe, inclusive, and accessible areas, with appropriate safeguards in place to protect vulnerable children. The application is supported by a detailed Management Plan which outlines the operational arrangements to ensure a safe living environment. Furthermore, the application has been discussed with the Designing Out Crime Officer (DOCO) who provided a supportive consultation response to the previous proposal, confirming that the proposal is still appropriate in terms of site security and crime prevention. Taking into account the nature of the proposal, its location, and the operational controls in place, it is considered that the development would not present an unacceptable risk of crime to its future occupants.

Impact on highway safety:

Local Plan Policy LP21 states that '*All proposals shall:*

a. ensure the safe and efficient flow of traffic within the development and on the surrounding highway network...

e. Take into account the features of surrounding roads and footpaths and provide adequate layout and visibility to allow the development to be accessed safely;'

This is supported by Chapters 9 and 12 of the NPPF and guidance within the Highways Design Guide SPDs. KC Highways Development Management (KC HDM) have also been consulted as part of this application.

There is not considered to be a material difference to the current parking situation of the building. There are three/four parking spaces at the front of the property.

There may be times when additional vehicles will arrive on time, such as at drop off times and when associated professionals visit. However, the number of visitors is not considered to be over and above what would reasonably be expected from a property in C3 use. Care plans that relate to the number of professionals will be provided on a child-by-child basis. Social workers are likely to visit the site once a month. The type of care provided is suitable for long-term, permanent stays, limiting the frequency of drop-off periods.

It is therefore considered that the proposal would not cause significant detrimental harm to the safe and efficient operation of the highway network, in accordance with Policies LP21 and LP22 of the Kirklees Local Plan and Chapter 9 of the NPPF.

Other matters:

Biodiversity

A Biodiversity Net Gain (BNG) of 10% for developments is a mandatory requirement in England under the Environment Act 2021, subject to some

limited exceptions. Unless exempt, every planning permission for minor sites granted pursuant to an application submitted after 02 April 2024 is deemed to have been granted subject to a pre-commencement condition requiring a Biodiversity Gain Plan to be submitted and approved by the local planning authority prior to commencement of the development.

The applicant has stated the application falls under the '*Di-Minimus*' exemption category within the application forms. A change of use would not result in a loss of wildlife habitat. Therefore, the officer agrees, the application is exempt from a BNG uplift.

Carbon Budget

The proposal is a change of use to the existing building. As such, no special measures were required in terms of the planning application with regards to carbon emissions. However, there are controls in terms of Building Regulations which will need to be adhered to as part of the construction process which will require compliance with national standards.

There are no other matters for consideration.

Representations:

None

Negotiations:

None

Proposed conditions

Along with the standard timescale condition, which is a requirement of Section 91 of the Town and Country Planning Act 1990, it is considered appropriate to add the following conditions.

Accordance with the approved plans to ensure the development is carried out in line with the officer's assessment.

No more than 2 children on site and to operate in line with the management plan, to ensure operation of the home is in line with the management plan.

Conclusion:

This application to use 15a Newsome Road as a children's home for two children, with two staff at all times has been assessed against relevant policies in the development plan as listed in the policy section of the report, the National Planning Policy Framework and other material considerations.

The NPPF has introduced a presumption in favour of sustainable development. The policies set out in the NPPF taken as a whole constitute the Government's view of what sustainable development means in practice.

As set out above, this application has been assessed against relevant policies in the development plan and other material considerations. It is considered that the development would constitute sustainable development and is therefore recommended for approval.

Recommendation

Approve

Decision Authorisation - Delegated Powers

Application Number: 2025/91309

Officer Recommendation: Approve

Conditions and Reasons

1. The development hereby permitted shall be begun within three years of the date of this permission.

Reason: Pursuant to the requirements of Section 91 of the Town and Country Planning Act 1990.

2. The development hereby permitted shall be carried out in complete accordance with the plans and specifications schedule listed in this decision notice, except as may be specified in the conditions attached to this permission, which shall in all cases take precedence.

Reason: For the avoidance of doubt as to what is being permitted and so as to ensure the satisfactory appearance of the development on completion, and to accord with Policy LP24 of the Kirklees Local Plan, Key Design Principles of the House Extensions & Alterations SPD and the aims of the National Planning Policy Framework.

3. The number of children living within the building shall not exceed 2 at any time, until the site's use falls outside of the scope of use pursuant to this permission.

Reason: To prevent undue noise and disturbance to neighbouring occupants and to ensure the safe and efficient flow of traffic on Newsome Road, in accordance with LP21, LP22 & LP24 of the Kirklees Local Plan and Chapters 9 & 12 of the NPPF.

4. The use hereby permitted shall be operated in accordance with the submitted document supporting statements validated with the submission on 26/08/2025 for the lifetime of the development.

Reason: In the interests of safe operation and community cohesion and to accord with Policy LP24 of the Kirklees Local Plan and policies within Chapters 8 and 12 of the National Planning Policy Framework.

NOTE: The granting of planning permission does not override any private legal rights or consents that may be required. It is the responsibility of the applicant / developer to ensure that all appropriate consents are in place prior to any development commencing; during the period of construction existing access for neighbouring properties is maintained; and no damage is caused to the access driveway or surrounding properties.

NOTE: To minimise noise disturbance at nearby premises it is generally recommended that activities relating to the erection, construction, alteration, repair or maintenance of buildings, structures or roads shall not take place outside the hours of:

07.30 and 18.30 hours, Mondays to Fridays

08.00 and 13.00hours, Saturdays

With no working Sundays or Public Holidays

In some cases, different site specific hours of operation may be appropriate. Under the Control of Pollution Act 1974, Section 60 Kirklees Environment and Transportation Services can control noise from construction sites by serving a notice. This notice can specify the hours during which the works may be carried out.

Plans and specifications schedule: -

Plan Type	Reference	Web ID	Date Received
Location plan	-	1102874	26/08/2025
Existing & proposed plans	1	1102872	26/08/2025
