<p>This is a very affluent area and houses sell for a lot of money due to its location and property types. In August this property was advertised as a air bnb and there was a huge party at this property with numerous roads blocked and all residents near by disturbed realy badly as there was a drinks and drugs rave party. Police were called and they have a full report of this incident the roads had to be closed and police presence was huge which used resources that could have been spent else's where. Also it has come to light the garage attached to this property is being used as a letting for residential accomadation with out the right planning in place. This means this garage should be charged separate council tax for the council to benefit from this. Granting this application in this area will cause the area to calapse and property prices will decline and the area being savaged. Please look at all information I have attached and do your own research on this property.</p>
