<p>I object to the proposal to build a house to rear of 14 Lincroft avenue. It will block natural light to the homes on Felcote Avenue and will make the first few houses feel hemmed in. It will also block sunlight to the gardens especially from late autumn to early spring. The parking on Earles Avenue is really bad during the icy part of winter months due to the steepness of Felcote Avenue the residents park on Earle's avenue adding another house will only add to the problem. If adding a building to give privacy to one home on Lincroft which had no previous privacy issues until you cut down all the trees and added a dorma . perhaps day and night blinds could be considered rather than cause misery to other homeowners on Felcote</p>
