<p>I do not understand the logic that promotes tree planting and rewilding of Woodsome Valley off the Clough Hall Lane top of the valley while considering overdevelopment and loss of open space at the bottom on Lumb Lane. This proposal is not in keeping with the agricultural and ecological history of Woodsome Valley and should be rejected on historical, ecological and aesthetic grounds. I also wish to note that fox, deer, and field mice live in the valley immediately behind and to the sides of the proposed building site both in the surrounding open rural fields and hedges. It is also the case that obvious animal trails including deer, fox lead to the stream immediately behind the proposed building site. I urge you, once again, to reject this proposal and protect and preserve the historic, ecological and rural nature of Lumb Lane and Woodsome Valley.</p>
