| <p>I believe the Market should not be changed. The Market is a hub and has been apart of huddersfield for longer than the Kirklees council has been in existence. What happens to the people who hold regular stalls, they wont get paid during the time the works are in play so they will have to find alternative placements but will they come back?</p> <p>I appreciate that the town centre is premium retail that you can make a lot of money on but the area of huddersfield is not for you to make money, it is for the people of huddersfield. What has happened to our town centre since Kirklees has been in charge is appalling. Try focusing on bringing businesses back to huddersfield instead of trying to drive out what little business is still active. We are nothing but Pound shops, betting shops, vape shops and supermarkets.</p> <p>Leave the Outdoor market alone.</p> | |
