Planning applications 2025/92443/W and 2025/92444/W Huddersfield Open Market

I am writing to object to these planning applications for the following reasons:

The current market is vibrant and holds great character.

It is extremely accessible and serves a very wide variety of communities.

Since 2020/2021, the traders and customers have continued to support this charming old market and it has begun to thrive once again.

The number of stalls will be cut and the entire design will remove the character of the Huddersfield Open Market.

People travel from overseas to visit this market because of the design and history associated with the current building.

Changing the building and the interior will result in a reduction in the number of visitors to Huddersfield and will impact on all businesses within the town centre.
