<p>This is a listed building and and part of the heritage of Huddersfield and should be preserved as close as possible, as it is for generations to come.</p> <p>I object to the plans, I am a regular visitor to the market and at the moment there is nothing fundamentally wrong with the ammount of stalls.</p> <p>Most days all the stalls are all taken up and it is very busy, There are a lot of people that rely on that for there livleyhood.</p> <p>If there is a serious reduction in stall space that is going to impact a lot of people both traders and visitors to the market.</p> <p>I fear a lot less people will visit the area as a result and result in a further decline of the centre of Huddersfield.</p>
