Subject: Planning application numbers 2025/48/92443/W Huddersfield Open Market/W & 2025/65/92444

Re: Planning application numbers 2025/48/92443/W Huddersfield Open Market/W & 2025/65/92444 Huddersfield Open Market, Brook Street, Huddersfield, HD1 1DY

i would like to object to the above application for the following reasons:-

1. The new design cuts the stalls available to regular and casual traders by a large amount and will severely limit the mix of goods that can be sold. This i feel would be very detrimental to the market and the Huddersfield public.
2. The disruption this would cause to traders would be massive - for many of whom trading on this market is there sole income. I do not feel this has been considered enough and i also feel that little if any consultation has taken place with the traders.
3. Huddersfield open market is a busy and vibrant market. The roof structure needs attention as does the drainage system. But i do feel that turning the current market into what would be mainly a food court would not benefit Huddersfield - it is already served well is this.
4. The people and public of Huddersfield - many of whom i have spoken to
- have also not been consulted on this - i know of no-one who has been asked there opinion on this.

Thankyou for your time and consideration,
Yours Sincerely
