| <p>I wish to object to this planning application.</p> <p>As a long standing Huddersfield Market trader, I consider the plan to reduce the number of stalls inside to be very unwise. This place is a thriving hub of activity, both for traders and the public, and of course, people like me rely upon it to make a living. People come here from afar for the experience of finding all kinds of interesting and low priced treasures. It has been an institution for decades. It's difficult to see how these changes are going to improve the place for all of us poor souls who depend upon it for our livelihoods. Nearly all of us traders think that all it needs is a light renovation, and most of the public seem think this too. And not to mention the 18 months of disruption if that is really how long it's going to take.</p> <p>So, to sum my objection up, I feel that these plans are going to destroy the fabric of the place, and wreck the livelihoods of all of us, so please listen to our pleas and stop this from going ahead.</p> <p>Thank you for taking the time to read this.</p> | |
