2025/48/92443/W & 2025/65/92444/W Huddersfield Open Market, Brook Street, Huddersfield, HD1 1DY

I am writing to object to this planning application because:

1. The regular Sunday autojumble is very popular and it would be a great shame that, due to the reduction of stall capacity, this event would no longer be viable. I would further add that the jumble has great visitor numbers from all over, not just Huddersfield, and always has stalls that completely fill the area.
2. Is it really necessary to make changes to the capacity for stallholders, and change the range of goods sold; markets can be the lifeblood of any town, these changes could bring that to a premature end.

Please reconsider.
