Subject: 2025/48/92443/W & 2025/65/92444/W Huddersfield Open Market, Brook Street, Hudde

Hello,

Re: Planning Application 2025/48/92443/W & 2025/65/92444/W Huddersfield Open Market, Brook Street

I am writing to object to this planning application for the following reasons:-

I think the market hall as it is currently configured is a great asset to Huddersfield and the proposed design that cuts the number of stalls inside the market hall should be rejected as this will be a retrograde step for most of the events currently held there.

Over many years I particularly enjoy attending the regular Autojumble held there organised by Phoenix Fairs. I understand its future would be in doubt if the current stall capacity is reduced as it would no longer be a viable event.

Please acknowledge this objection.

Regards
