<p>I Object to the plan submitted as it will reduce the market hall space. This will reduce the current allocated space for market trading. Notably the Auto Jumbles and other similar events. It will loose its appeal and historic elements that need conserving. There is enough change made in Huddersfield Town Centre for space that is driving people out of town with some of the current planning policies. We should be promoting events like this not driving them away. Take a note from Calderdale, in particular the use of the Piece Hall.</p>
