Planning Application 2025/48/92443/W and 2025/65/92444/W

Huddersfield Open Market, Brook St, Huddersfield

Dear Sirs,

I am writing to you to object to the planning applications above, re Huddersfield Open Market.

I have supported the Autojumble held at the market for some 30 years, both as a stall holder and a paying customer. I feel that modifications proposed in the planning applications will severely detract from the way the venue is run for the Autojumble, by severely reducing the number of stalls. An event that is supported by many classic car owners in the North of England. I am sure the same will apply to other events that use the Market.

I am disturbed to find that I am not able to make this objection on line, despite me trying through your portal, Comment on a Planning Application as a guest, as I live in Halifax and do not have a HD post code.

I am also disturbed to see that there are no objections displayed which I find very hard to believe, as I know for a fact that many have been made, as well as signed petitions submitted.
