**Subject:** Planning Application 2025/45/92443/W & 2025/65/92444/W.

I am writing object to this planning application for the following reason

**THIS IS A SECOND HAND / FLEA MARKET**

Huddersfield Open Market regarding proposed plans for the market.

I believe that the market brings people to Huddersfield & in its present form it works.

There are enough cafes & food stalls on & around the market.

You will be destroying the present cafes & food sellers businesses that they have worked long & hard to build up.

All the market needs is a lick of paint & the roof made waterproof & maybe some new replacement stall boards.

Why try to mend something that has worked for years & is not broken .

The council has no idea of the community spirit & socialising hub that the market brings to Huddersfield.

Customers don't want something that is full of food, they want a second hand market that works, which Huddersfield does.

Look around Yorkshire & other counties to see what

Local councils have done to markets, they are destroying them with their stupid renovations & stall set ups that planners are imposing on traders & public alike. They have no concept or common sense regarding what a second hand market should be & no idea of what market traders & customers want.

Drastic changes that you are planning will ruin the market.

It may look good on paper but in the real world it won't work.
