

Biodiversity gain plan

Submit a biodiversity gain plan to show how your development will achieve biodiversity net gain.

When to use this form

A biodiversity gain plan shows how a development will achieve 10% biodiversity net gain (BNG). Submit this form to your local planning authority after they approve your planning application.

Unless your development is exempt, you cannot start the development until the LPA approves your biodiversity gain plan and biodiversity metric calculation tool.

Yes

No

4.2 If no, what earlier date did you agree with the LPA?

4.3 How have you met the guidance on 'what counts towards your BNG'?

[Find out what you can count towards a development's BNG](#)

- The development is considered to benefit from the de-minimus exemption as set out by The Biodiversity Gain Requirements (Exemptions) Regulations 2024 because;
- It does not impact a priority habitat and impacts less than:
- 25 square metres (5m by 5m) of on-site habitat
- 5 metres of on-site linear habitats such as hedgerows

4.4 How will you avoid or minimise impacts to habitats?

Tell us about the steps you've taken on site, including to avoid or minimise the impact on irreplaceable habitats.

The PEA demonstrates that the site is 100% hardstanding and as such has not habitats.

The intended work area is 100% hard standing with no greenery, soil, and watercourses in the intended.

4.5 Did you use your local nature recovery strategy to inform the strategic significance of habitats?

This includes other specified strategies if you do not have a local nature recovery strategy.

Yes

4.6 How will you achieve the target net gain percentage?
