Re: Planning Application No. 2025/62/92449/W

Case Officer: Joshua Merriman

Dear Mr Merriman

I am writing to express my full support for the proposed erection of a 1800mm (6ft) boundary fence as outlined in planning application 2025/92449

As a neighbour, I believe the fence is a necessary and practical addition to the property. Without it, the residents have very little privacy, with clear visibility into their garden and kitchen from surrounding homes and the street. This is particularly concerning given that the family . A secure boundary would offer them the privacy and safety that every household deserves.

The homeowners have clearly invested time and effort into improving their home and garden, undertaking much-needed renovations and enhancing the overall appearance of the property. Their commitment to maintaining a well-kept home benefits the wider neighbourhood and reflects positively on the area.

It's also worth noting that several other properties in the immediate vicinity already have high wooden boundary fences, Given this context, it would be unfair to single out or restrict this particular property when similar high fencing is clearly accepted and present nearby.

The property in question is situated on a corner plot, which means it does not benefit from neighbouring houses or existing structures to shield it from public view. Unlike other homes on the street, it is fully exposed on multiple sides, making the need for a boundary fence even more critical for privacy and security.

The proposed fence is in keeping with the character of the area and will contribute positively to the safety, privacy, and wellbeing of the residents.

I sincerely hope the council will approve this application.
