

Calibration Certificate

Issued by	Environmental monitoring	Certificate number	1351
------------------	--------------------------	---------------------------	------

Customer	stock	Calibration date	17 th November 2014
-----------------	-------	-------------------------	--------------------------------

Instrument	Mini Rae 3000	Calibrated by	AT
-------------------	---------------	----------------------	----

Serial no	SN592 901076	Ambient temp	213deg C
Service done	17 st November 2014	Ambient pressure	1003mbar
Service interval	1 year	Calibration due	4 th April 2015
PO ref number	n/a	Linearity check	Na
Logger	n/a	Battery	Pass
Filter	Pass	Overall result	Pass

Test Method

The instrument was calibrated by applying a know concentration of gas at a set flow rate. The results are recorded on this sheet **after** adjustment and a constant reading is obtained

Test reference	Cert tracability	Instrument reading	pass/fail
