<p>Objection to new build on design and appearance, two storey would take away the privacy of the school, it would be out of character of the surroundings. A revised plan should be of bungalow type, single storey and built fully in natural stone to fit in with No's 24 and 26 in a courtyard setting.</p> <p>Objection to new vehicular access to No 26 East Street, impact on safety! This would be inbetween entrances to two schools, school bus stop outside, it would be positioned metres away from the busy driveway to Lindley Junior School. The safety of school children is a must, and these plans are a serious concern. There will be increased vehicular activity with the existing drive for 24 East St and proposed new build, then another proposed driveway solely for No 26. East Street is extremely busy especially at drop off and pick up time with children and parents. Bus stop cannot be moved as lower down road narrows, higher up is existing drive and island. A Preliminary Bat Roost Assessment is a must, with a full report as there are bats in the area, their roost is unknown.</p>
