

**Town and Country Planning Act 1990**

**Town and Country Planning (Development Management Procedure) (England) Order  
2015**

**PLANNING PERMISSION FOR DEVELOPMENT**

---

**Application Number: 2025/62/92526/E**

---

**To: Amjid Mohammed,  
A1-Cad-Design  
582, Great Horton Road  
Bradford  
BD7 3EU**

**For: M JALIL**

**In pursuance of its powers under the above-mentioned Act and Order the KIRKLEES COUNCIL (hereinafter called "The Council") as Local Planning Authority hereby permits:-**

**ERECTION OF EXTENSIONS AND ALTERATIONS TO DETACHED GARAGE  
TO FORM DWELLING**

**At: ADJ, 101A, HALIFAX ROAD, STAINCLIFFE, BATLEY, WF13 4BD**

---

**In accordance with the plan(s) and applications submitted to the Council on 28-Nov-2025, subject to the condition(s) specified hereunder:-**

1. The development hereby permitted shall be begun within three years of the date of this permission.

**Reason:** Pursuant to the requirements of Section 91 of the Town and Country Planning Act 1990.

2. The development hereby permitted shall be carried out in complete accordance with the plans and specifications schedule listed in this decision notice, except as may be specified in the conditions attached to this permission, which shall in all cases take precedence.

**Reason:** For the avoidance of doubt as to what is being permitted and to ensure the satisfactory appearance of the development on completion, and to accord with Policy LP1, LP2, LP3, LP7, LP11, LP21, LP22, LP24, LP30, LP53 of the Kirklees Local Plan, and the aims of the National Planning Policy Framework.

3. Groundworks shall not commence until actual or potential land contamination at the site has been investigated and a Preliminary Risk Assessment (Phase I Desk Study Report) by a suitably competent person has been submitted to and approved in writing by the Local Planning Authority.

**Reason:** To ensure the safe occupation of the site in accordance with Policy LP53 of the Kirklees Local Plan and paragraph nos. 196 and 198 of the National Planning Policy Framework.

4. Where further intrusive investigation is recommended in the Preliminary Risk Assessment approved pursuant to condition (3) groundworks (other than those required for a site investigation report) shall not commence until a Phase II Intrusive Site Investigation Report by a suitably competent person has been submitted to and approved in writing by the Local Planning Authority.

**Reason:** To ensure the safe occupation of the site in accordance with Policy LP53 of the Kirklees Local Plan and paragraph nos. 196 and 198 of the National Planning Policy Framework.

5. Where site remediation is recommended in the Phase II Intrusive Site Investigation Report approved pursuant to condition (4) further groundworks shall not commence until a Remediation Strategy by a suitably competent person has been submitted to and approved in writing by the Local Planning Authority. The Remediation Strategy shall include a timetable for the implementation and completion of the approved remediation measures.

**Reason:** To ensure the safe occupation of the site in accordance with Policy LP53 of the Kirklees Local Plan and paragraph nos. 196 and 198 of the National Planning Policy Framework.

6. Remediation of the site shall be carried out and completed in accordance with the Remediation Strategy approved pursuant to condition (5). In the event that remediation is unable to proceed in accordance with the approved Remediation Strategy or contamination not previously considered [in either the Preliminary Risk Assessment or the Phase II Intrusive Site Investigation Report] is identified or encountered on site, all groundworks in the affected area (except for site investigation works) shall cease immediately and the Local Planning Authority shall be notified in writing within 2 working days. Works shall not recommence until proposed revisions to the Remediation Strategy have been submitted to and approved in writing by the Local Planning Authority. Remediation of the site shall thereafter be carried out in accordance with the approved revised Remediation Strategy.

**Reason:** To ensure the safe occupation of the site in accordance with Policy LP53 of the Kirklees Local Plan and paragraph nos. 196 and 198 of the National Planning Policy Framework.

7. Following completion of any measures identified in the approved Remediation Strategy or any approved revised Remediation Strategy a Verification Report by a suitably competent person shall be submitted to the Local Planning Authority. No part of the site shall be brought into use until such time as the remediation measures have been completed for (that part of) the site in accordance with the approved Remediation Strategy or the approved revised Remediation Strategy and a Verification Report in respect of those remediation measures has been approved in writing by the Local Planning Authority.

**Reason:** To ensure the safe occupation of the site in accordance with Policy LP53 of the Kirklees Local Plan and paragraph nos. 196 and 198 of the National Planning Policy Framework.

8. No above ground development shall commence until;
- a) a scheme of intrusive investigations has been carried out on site to establish the risks posed to the development by past shallow coal mining activity; and
  - b) any remediation works and/or mitigation measures to address land instability arising from past coal mining legacy, as may be necessary, have been implemented on site in full in order to ensure that the site is made safe and stable for the development proposed.

The intrusive site investigations, remedial works and mitigatory measures shall be carried out in accordance with authoritative UK guidance.

**Reason:** To ensure the safe occupation of the site in accordance with Policy LP53 of the Kirklees Local Plan and paragraph nos. 196 and 198 of the National Planning Policy Framework.

9. Prior to the occupation of the development, or it being taken into beneficial use, a signed statement or declaration prepared by a suitably competent person confirming that the site is, or has been made, safe and stable for the approved development shall be submitted to the Local Planning Authority for approval in writing. This document shall confirm the methods and findings of the intrusive site investigations and the completion of any remedial works and/or mitigation necessary to address the risks posed by past coal mining activity.

**Reason:** To ensure the safe occupation of the site in accordance with Policy LP53 of the Kirklees Local Plan and paragraph nos. 196 and 198 of the National Planning Policy Framework.

10. Development shall not commence to extend the dwelling unit hereby approved until a detailed scheme showing the area of road to be adopted by the Highway Authority has been submitted to and approved in writing by the Local Planning Authority. The scheme shall include construction specifications, white lining, surface finishes. The approved scheme shall be completed before the occupation of the dwelling unit on site and retained thereafter.

**Reason:** This is a pre-commencement condition in the interests of highway safety and to achieve a satisfactory layout in accordance with Policies LP21 and LP22 of the Kirklees Local Plan and the aims of the National Planning Policy Framework.

11. Notwithstanding the details shown on the submitted drawings, new boundary treatment details shall be submitted and approved in writing by the Local Planning Authority, prior to first occupation of the dwellinghouse. The works shall then be carried out in complete accordance with the approved details and shall be retained thereafter.

**Reason:** In order to provide a satisfactory level of privacy for occupants of 101a Halifax Road, and in accordance with Chapter 12 of the National Planning Policy Framework, LP24b of the Kirklees Local Plan and with Principle 6 of the Kirklees Housebuilders Design Guide SPD.

12. Before work commences on the superstructure of the extensions hereby approved, and notwithstanding the details on the approved plans, further details of arrangements for the storage and collection of domestic wastes shall be submitted to and approved in writing by the Local Planning Authority. The details approved shall be provided prior to the first occupation of the dwellings hereby permitted, and the areas approved for the storage and collection of wastes shall be retained as such, free from obstructions to their use.

**Reason:** In order to maintain a clear and obstruction free access on Highfield Lane and in accordance with Policies LP21 of the Kirklees Local Plan and the aims of the National Planning Policy Framework.

13. The development shall not be occupied until the W/C windows in the new dwelling hereby approved has been obscurely glazed (to a minimum Grade 4). Notwithstanding the provisions of the Town and Country Planning (General Permitted Development) Order 2015 as amended (or any Order revoking or re-enacting that Order) the obscure glazing (to a Grade 4) shall thereafter be retained.

**Reason:** To protect the privacy of future and neighbouring occupiers and to accord with Policy LP24b of the Kirklees Local Plan the Key Design Principles of the Kirklees Housebuilders Design Guide SPD and the aims of the National Planning Policy Framework.

14. The external walls and roofing materials of the extensions and alterations hereby approved shall in all respects match those used in the construction of the existing building.

**Reason:** In the interests of visual amenity and to accord with Policy LP24 of the Kirklees Local Plan, Key Design Principles of the Kirklees Housebuilders Design Guide SPD and the aims of chapter 12 of the National Planning Policy Framework.

**NOTE:** Please note that the granting of planning permission does not override any private rights of ownership and it is your responsibility to ensure you have the legal right to carry out the approved works, as construction and maintenance may involve access to land outside your ownership.

**NOTE:** Bats and the places they use for shelter or protection (i.e. roosts) are protected under the Habitats Regulations 2017 (as amended). They receive further legal protection under the Wildlife and Countryside Act 1981 (as amended). Section 43 of the Habitats Regulations makes it an offence to: deliberately capture, injure, or kill a bat; deliberately disturb bats; or damage or destroy a bat roost. Where a licence is required to derogate from the Habitats Regulations, a grant of planning permission does not constitute consent to proceed with the works insofar as they affect the species in question. The licence must be applied for separately from Natural England, be granted and all licence conditions be complied with for the works to proceed lawfully. Reason: In order that the proposals are implemented in accordance with the Wildlife and Countryside Act 1981 (as amended).

**NOTE:** No construction related noise should be audible beyond the site boundary outside the hours of: 07.30 to 18.30 hours Mondays to Fridays, 08.00 to 13.00 hours Saturdays. With no construction related noise audible beyond the site boundary on Sundays or Public Holidays. Kirklees Council has powers under Section 60 of the Control of Pollution Act 1974 to control noise from construction sites and may serve a notice imposing requirements on the way in which construction works are to be carried out. It has additional powers under Sections 80 of the Environmental Protection Act 1990 to prevent statutory nuisance including noise, dust, smoke and artificial light and must serve an abatement notice when it is satisfied that a statutory nuisance exists or is likely to occur or recur. Failure to comply with a notice served using the above-mentioned legislation would be an offence for which the maximum fine on summary conviction is unlimited.

**NOTE:** Kirklees Council has powers under Section 60 of the Control of Pollution Act 1974 to control noise from construction sites and may serve a notice imposing requirements on the way in which construction works are to be carried out. It has additional powers under Sections 80 of the Environmental Protection Act 1990 to prevent statutory nuisance including noise, dust, smoke and artificial light and must serve an abatement notice when it is satisfied that a statutory nuisance exists or is likely to occur or recur. Failure to comply with a notice served using the above-mentioned legislation would be an offence for which the maximum fine on summary conviction is unlimited.

## Plans and specifications schedule:-

Plan Type	Reference	Version	Date Received
Location plan	A1-CAD/01F	-	28 November 2025
Existing grouped plans	A1-CAD/02	-	28 November 2025
Proposed grouped plans	A1-CAD/03A	-	28 November 2025
Coal mining risk assessment	G25345	-	28 November 2025
Design and access statement	-	-	28 November 2025
Climate change statement	-	-	28 November 2025

Pursuant to article 35 (2) of the Town and Country Planning (Development Management Procedure) Order 2015 and guidance in the National Planning Policy Framework, the Local Planning Authority has, where possible, made a pre-application advice service available, complied with the Kirklees Development Management Charter 2024 and otherwise actively engaged with the applicant in dealing with the application. The applicant has provided additional information and agreement to the conditions.

### **Digital Infrastructure: Fibre To The Property (FTTP)**

Access to affordable and reliable broadband is necessary for Kirklees' residents, businesses, and visitors to take advantage of the growing digital economy and 'digital by default' services. Fibre optic cables direct to a property (FTTP) is the most reliable way of delivering high speed broadband connectivity and allows for gigabit internet speeds. Access to high quality digital infrastructure provides the foundations for, amongst other things:

- Economic prosperity – workforces that are digitally-literate enables business to thrive.
- Digital literacy – digital literacy and skills increase employability and people can exploit the internet for transactional, social, entertainment and learning purposes.
- New services – digital delivery can lower costs and provide innovative public and health services more conveniently.

It is therefore advised that digital infrastructure, including FTTP, and its benefits for the development be considered from the earliest feasible stage. Methods include working with Internet Service Providers to install digital infrastructure alongside other utilities or providing pre-infrastructure allowing for speedier installation at a later date.

**Note:** The provision of fibre infrastructure is often available from certain telecommunications providers free of charge for development over a certain scale, provided that sufficient notice is given. Notice periods are typically at least 12 months prior to first occupation. In some cases, providers may request a contribution from the developer.

**Note:** Where no telecommunications provider has been secured to provide fibre infrastructure by the time of highway construction, it is advised that additional dedicated telecommunications ducting is incorporated alongside other utilities to enable the efficient and cost effective provision of fibre infrastructure in the future.

**Building Regulations Approval is required for most work involving building operations and/or structural alterations. It is the applicant's responsibility to find out if the work permitted by this planning permission needs approval under the Building Regulations, and if necessary to submit an application. If you are not the applicant can you please ensure the applicant is aware of this requirement. Contact Building Control on Tel No: (01484) 221550 for more information.**

**It is the applicant's responsibility to find out whether any works approved by this planning permission, which involve excavating or working near public highway and any highway structures including retaining walls, will require written approval from the Council's Highways Structures Section. Please contact the Highways Structures Section on Tel No. 01484-221000 Ext 74199 for further advice on this matter.**

#### **Details Reserved by Condition**

- **This permission has been granted subject to conditions. Some of the conditions may require you to submit further details. These conditions normally contain the wording "submitted to and approved in writing by the Local Planning Authority".**
- **You can apply online for approval of these details at the Planning Portals website at [www.planningportal.gov.uk](http://www.planningportal.gov.uk). Alternatively the forms and supporting guidance for submitting an application can be found online at [www.kirklees.gov.uk/planning](http://www.kirklees.gov.uk/planning).**
- **This Authority recognises the need to ensure that you are able to develop the site as effectively and flexibly as possible. However, at the same time it must ensure that development is in accordance with the terms of the planning conditions and legal agreement and the expectations of elected members and local residents set through the decision process.**
- **You should note the triggers for compliance with the conditions of this planning permission. This Authority is committed to processing applications to discharge conditions in a timely manner. It is important to ensure that submissions are made as far in advance of the trigger to allow time for adequate consultation, discussion and in some circumstances publicity.**
- **It is important that applications to discharge conditions are accompanied by sufficient information to enable this Authority and its consultees to fully consider and determine the proposals. Whilst officers will endeavour to negotiate solutions, failure to provide a comprehensive submission may result in delay and refusal of the application.**
- **If you commence work without discharging conditions you are at risk of enforcement action and invalidating your permission if the planning condition is a pre commencement condition.**

## **Development within a Coal Mining Area**

The proposed development lies within an area that has been defined by the Mining Remediation Authority as containing coal mining features at surface or shallow depth. These features may include: mine entries (shafts and adits); shallow coal workings; geological features (fissures and break lines); mine gas and former surface mining sites. Although such features are seldom readily visible, they can often be present and problems can occur, particularly as a result of new development taking place.

Any form of development over or within the influencing distance of a mine entry can be dangerous and raises significant land stability and public safety risks. As a general precautionary principle, the Mining Remediation Authority considers that the building over or within the influencing distance of a mine entry should be avoided. In exceptional circumstance where this is unavoidable, expert advice must be sought to ensure a suitable engineering design which takes account of all relevant safety and environmental risk factors, including mine gas and mine-water. Your attention is drawn to the Mining Remediation Authority Policy in relation to new development and mine entries available at:

[Building on or within the influencing distance of mine entries - GOV.UK](#)

Any intrusive activities which disturb or enter any coal seams, coal mine workings or coal mine entries (shafts and adits) requires a Mining Remediation Authority Permit. Such activities could include site investigation boreholes, excavations for foundations, piling activities, other ground works and any subsequent treatment of coal mine workings and coal mine entries for ground stability purposes. Application forms for Mining Remediation Authority permission and further guidance can be obtained from The Mining Remediation Authority's website at: <http://www.gov.uk/get-a-permit-to-deal-with-a-coal-mine-on-your-property>

[What is a permit and how to get one? - GOV.UK \(www.gov.uk\)](#)

In areas where shallow coal seams are present caution should be taken when carrying out any on site burning or heat focused activities.

If any future development has the potential to encounter coal seams which require excavating, for example excavation of building foundations, service trenches, development platforms, earthworks, non-coal mineral operations, an Incidental Coal Agreement will be required. Further information regarding Incidental Coal Agreements can be found here -

<https://www.gov.uk/government/publications/incidental-coal-agreement/guidance-notes-for-applicants-for-incidental-coal-agreements>

If any coal mining features are unexpectedly encountered during development, this should be reported immediately to the Mining Remediation Authority on 0800 288 4242. Further information is available on the Mining Remediation Authority website at: [Mining Remediation Authority - GOV.UK](#)

Where the application has been publicised by notice(s) in the vicinity of the site. It is respectfully requested that the notice(s) now be removed and responsibly disposed of to avoid harm to the appearance of the area

### **Appeals to the Secretary of State**

- If you are aggrieved by the decision of your Local Planning Authority to grant it subject to conditions, then you can appeal to the Secretary of State under section 78 of the Town and Country Planning Act 1990.
- If an enforcement notice is served relating to the same or substantially the same land and development as in your application and if you want to appeal against your Local Planning Authority's decision on your application, then you must do so within:
  - i) 28 days of the date of service of the enforcement notice, or
  - ii) within the specified period, starting on the date of this notice,whichever period expires earlier.
- If you want to appeal against your Local Planning Authority's decision then you must do so within the specified period, starting on the date of this notice.
- The "specified period" is 12 weeks where the development relates to a "minor commercial application" as defined within the Town and Country Planning (Development Management Procedure) Order 2010 (as amended), or 6 months in any other case.
- Appeals must be made using a form which you can get from the Secretary of State at Temple Quay House, 2 The Square, Temple Quay, Bristol BS1 6PN (Tel: 0303 444 5000) or online at <https://www.gov.uk/appeal-planning-decision>. Further information on the Planning Appeal process can be found online at the Planning Inspectorates website <https://www.gov.uk/government/organisations/planning-inspectorate>.
- You must use the correct Planning Appeal Form when making your appeal. If requesting forms from the Planning Inspectorate, please state the type of application that the appeal relates to so they can send you the appeal form you require.
- The Secretary of State can allow a longer period for giving notice of an appeal, but he will not normally be prepared to use this power unless there are special circumstances which excuse the delay in giving notice of appeal.
- The Secretary of State need not consider an appeal if it seems to him that the Local Planning Authority could not have granted planning permission for the proposed development or could not have granted it without the conditions they imposed, having regard to the statutory requirements, to the provisions of any development order and to any directions given under a development order.
- In practice, the Secretary of State does not refuse to consider appeals solely because the Local Planning Authority based their decision on a direction given by him.

**Please note, only the applicant possesses the right of appeal.**

### Purchase Notices

- If either the Local Planning Authority or the Secretary of State refuses permission to develop land or grants it subject to conditions, the owner may claim that he can neither put the land to a reasonably beneficial use in its existing state nor render the land capable of a reasonably beneficial use by the carrying out of any development which has been or would be permitted.

In these circumstances, the owner may serve a purchase notice on the Council. This notice will require the Council to purchase his interest in the land in accordance with the provisions of Part VI of the Town and Country Planning Act 1990.

An important part of improving our service is to review your feedback on the way that we have dealt with your planning application(s). Please take a couple of minutes to email your comments to [dc.admin@kirklees.gov.uk](mailto:dc.admin@kirklees.gov.uk) so that we can work on continually improving our customer service. Thank you.

Dated: 04-Mar-2026

Signed:

David Shepherd  
Executive Director for Place

### Decision Documents

The decision notice indicates which documents relate to the decision. These documents can be viewed online at the Planning Services website at [www.kirklees.gov.uk/planning](http://www.kirklees.gov.uk/planning), and by clicking on the 'search planning applications and decisions' and by searching for application number 2025/62/92526/E.

If a paper copy of the decision notice or decided plans are required please email [dc.admin@kirklees.gov.uk](mailto:dc.admin@kirklees.gov.uk) or telephone 01484 414746 with the application number. There may be a charge for this service.
